San Diegans are invited to the third in a series of community workshops to help us plan the long-awaited redevelopment of the Riverwalk Golf Course in Mission Valley.

First, we covered the overall project scope. Next, we explored the possibilities for the river park. Now, we'll review how community input has informed the emerging plan and about the next steps in the planning process.

Although there will be additional opportunities for community input, this is the final workshop before the initial plan is submitted for detailed review by the City of San Diego and is an important opportunity for community input.

Please join us and help us restore the San Diego River and create a neighborhood in Mission Valley.
